

# SECURE VDI SOLUTIONS TO HELP YOU ENABLE YOUR REMOTE WORKFORCE

HPE has a comprehensive portfolio of VDI solutions to help you meet the immediate demands of enabling a remote workforce. Designed for VMware® and Citrix environments, HPE VDI solutions are built to deliver secure, efficient access to applications and data, and support a wide range of user requirements across healthcare, government, financial services, education, manufacturing, and retail industries. HPE has assembled pre-configured packages or can tailor the right solution to meet your specifications. Please contact your local [HPE Sales Rep](#) or [HPE Authorized Reseller](#) for availability in your country.

## VDI SOLUTIONS TAILORED FOR SMALL AND MIDSIZED BUSINESSES

[HPE SimpliVity](#) is well suited for VDI deployments, particularly midsize and SMB customers, who want a simplified hyperconverged infrastructure (HCI) experience to rapidly deploy all-in-one appliances that start small and scale in small increments. Unique capabilities include built-in data protection, guaranteed data efficiency, and VM-centric management while providing peak and predictable performance without compromise for remote users such as office, task and knowledge workers.

### USE CASES

- **HCI for VDI that starts small and scales**
- **Reliable access for office, task and knowledge workers**

## VDI SOLUTIONS STARTING FROM AS FEW AS 30 EMPLOYEES

Designed to support a variety of workloads and use cases, HPE ProLiant VDI solutions are ideal to support small teams of task workers, but can scale out to support hundreds to exactly match to the needs of your company.

### LIGHT WORKLOADS

#### Basic Data Entry

Database entry applications, command-line interfaces

### MEDIUM WORKLOADS

#### Consultant / Market Research

Database entry applications, command-line interfaces, Microsoft Word, static web pages

### HEAVY WORKLOADS

#### Collaboration Tools, MS Office

Microsoft Word, static web pages, Microsoft Outlook, Microsoft PowerPoint, dynamic web pages

### INTENSE WORKLOADS

#### Graphics Designers / 3D Model Makers / Machine Learning

Adobe Photoshop, Adobe Illustrator, computer-aided design (CAD), computer-aided manufacturing (CAM)

## Here's what makes HPE VDI Solutions stand out amongst the rest.

### Remote management from anywhere in the world

Work remotely with HPE iLO5 and manage your servers as if you were at the console. HPE is offering a trial license of iLO Advanced which provides free use of features such as the Integrated Remote Console to help you securely configure, optimize, and support the servers that keep your organization running.

### Enhanced, 360 degree security

The HPE-exclusive silicon root of trust protects, detects, and automatically recovers from malicious firmware attacks, shielding sensitive data, and protecting other network-connected devices.

### Automatically predict and prevent problems with AI-driven capability

HPE InfoSight for Servers, a cloud-based AI management tool, monitors the health of servers, leveraging predictive analytics to prevent server issues before operations are impacted.

## VDI SOLUTIONS FROM 600 TO MORE THAN 2000 KNOWLEDGE WORKERS

For large organizations with 600 knowledge workers or more, [HPE Synergy](#) is the best fit. Architected to accommodate dynamic resource loads, HPE Synergy quickly and easily composes compute, storage, and fabric resources through a single user interface to optimize configurations for vital workloads on VDI. HPE Synergy VDI solutions are offered in three starter kits and include all the necessary infrastructure components with the HPE Synergy frames, composer, fabric interconnects, installation services, and training.

### SMALL STARTER KIT

From 600 Knowledge Workers

### MEDIUM STARTER KIT

From 1,200 Knowledge Workers

### LARGE STARTER KIT

More than 2,000 Knowledge Workers

## USE CASES

### Specialized functions

- Office automation
- Customer service
- Task worker with client/server applications

### Collaborative groups

- Electronic health records—medium sized healthcare provider
- Client-server and browser-based apps
- Sales automation

### Enterprise wide

- Office automation with unified communications and browser applications
- Large scale electronic health records and back office apps

## HPE TRADE-IN

Reduce total cost of refresh by trading in old equipment. The HPE Accelerated Server Buy Back Program is offering up to \$1,400 cash back for every server trade-in. [Learn more](#)

**Citrix**

HPE brings their innovative and proven architectures for the data center, cloud and edge, together with Citrix secure digital workspaces to unify access to the apps and data people need to be more productive.

The Citrix partnership with HPE enables IT to securely deploy and manage modern digital workspaces faster and easier and helps organizations deliver the right outcomes from their apps, data, and infrastructure

**VMware**

HPE Client Virtualization with VMware Horizon® View offers an end-to-end VDI solution that provides IT teams with the flexibility to quickly deliver and refresh desktops regardless of device.

Based on the best managed and virtualization-ready HPE ProLiant and HPE Synergy servers, and storage, you can reduce risk and lower the complexity and cost of desktop management, while continuing to provide end users with the functionality of a stand-alone desktop.

**VDI SOLUTIONS FOR 300 OR MORE POWER USERS**

When knowledge workers such as financial traders, medical staff or software developers demand an exceptional user workspace experience, HPE Moonshot is the right choice. When deployed as bare-metal VDI, HPE Moonshot delivers more than a 70% performance advantage and consumes 25% less power than the previous generation. In virtualized desktops and applications where density and efficiency are paramount, the new HPE ProLiant m750 Server Blade can support nearly 33% percent more remote workers on 25% less datacenter power. This solution prioritizes the user experience, empowering workers' productivity.

**USE CASES**

- **Financial Trader workstations**
- **Design and product engineering workstations**
- **Media processing and transcoding workstations**
